

# WRISK study design

The WRISK project is underpinned by principles of co-production and public engagement. The WRISK methodology combines four core strands, to be developed in parallel.

## WRISK Voices

Survey  
1-1 interviews  
WRISK Media Study  
Consultation with 'women experts'

## WRISK Network

Coproduction of recommendations with a diverse group of stakeholders using a consensus methodology

## WRISK Engagement

Spark a public conversation about communication of risk in pregnancy using our website, social media, and public engagement events

## WRISK Dissemination

Share and embed our findings through conferences, seminars, research articles and a book
